AFCIS

Air Force Contracting e-Business Training Workshop (November 2003)

TABLE OF CONTENTS

- Air Force Pre and Post Upgrade Tasks

- SPS Deployment Team Upgrade

- PD^2

- SPSI

- Integrity v5.0

PD²

Air Force Pre and Post Upgrade Tasks

➢ Pre and Post Upgrade Automation

- AFCIS developed

- Saves approximately 100 man hours per site

- Accomplishes mandatory and many optional tasks listed in the v4.2 SAUIG

- Updates site to standard Air Force Security Model

- Implements Air Force security requirements

- AFCIS posted for site download

➢ Pre and Post Upgrade Automation - GREEN

- ISSUE: PD^2 user passwords expired for all PD^2 users (Robins only)

- MITIGATION: Specific to Robins because of database restore procedure that took place at site

Air Force Pre and Post Upgrade Tasks

➤ Pre and Post Upgrade Automation -

   - ISSUE:

   - MITIGATION:

➢ Pre-Upgrade Instrument Panel DBCC's - GREEN

- ISSUE: Database corruption occurred for SPSI IDB (Keesler only)

- MITIGATION: Add instrument panel task for AFCIS to perform IDB DBCC (in addition to Production Database DBCC)

SPS Deployment Team Upgrade

➤ Departure – GREEN

- ISSUE: SPS Deployment Team members departing upgrade site prior to exit meeting

- MITIGATION: JPMO mandates minimum of only one Deployment Team member attend upgrade (including exit meeting)

SPS Deployment Team Upgrade

➢ Sybase Server Back-Ups - YELLOW

- ISSUE: Air Force request that JPMO Standard Upgrade Process include time for site to perform Sybase Server Tape Back-Up or moving database back-up to File Server

- MITIGATION: Susan Haskew to submit request to JPMO office

SPS Deployment Team Upgrade

PD²

➢ Print Preview SF1449 and DD1155 - GREEN

- ISSUE: Viewing SF1449 and DD1155's in Print Preview does not show complete page (021108-152211-AM)

- MITIGATION: Change desktop resolution from 800X600 to 1024X768 to view entire page in Print Preview. Printing document from file menu (File>Print) displays printed copy correctly

➢ Line Item Delivery Schedules - GREEN

- ISSUE: Incorrect delivery schedule information appears and user is logged out of PD² when clicking "cancel" button in delivery schedule period of performance window (020926-141806-JD)

- MITIGATION: Clicking "x" button on window instead of "cancel" prevents erroneous information and user being logged out of PD²

➢ Line Of Accounting Scroll Bar - GREEN

- ISSUE: If lines of accounting are deleted on a document, informational message appears listing lines of accounting deleted. If there are large number of deleted lines of accounting listed, window becomes large and no scroll bar appears (021009-144028-MT)

- MITIGATION: User clicks space bar or enter button instead of "ok" to click out of informational windonw
